

UNIVERSITY OF PISA

DEPARTMENT OF CIVIL AND INDUSTRIAL ENGINEERING

Master of Science programme in Chemical Engineering

Quality survey questionnaire – to be compiled by the host institution's tutor

Tutor: _____

Host institution: _____

Main activities / sector _____

Address: _____

LEGEND – description of the rating to be assigned for the evaluation of the trainee:

- 1 = insufficient
- 2 = sufficient
- 3 = fair
- 4 = excellent

ID	Question	Evaluation			
		1	2	3	4
1	How do you evaluate the trainee's initial preparation with respect to the internship objectives and the institution's activities?				
2	How do you evaluate the trainee's preparation with respect to the specific skills of chemical engineering?				
3	How do you evaluate the student's abilities and "soft" skills (teamwork interactions, flexibility, language skills, attitude to problem solving, etc.)?				
4	How do you rate the level of autonomy and independence of the trainee in the development of activities?				
5	Did the internship activity have a significant technical and scientific feedback in the perspective of innovation and/or business activities of the institution?				
6	Would you repeat this experience by establishing novel internship offers?				

The present internship constituted the basis for a subsequent work cooperation among your institution, such as:

- W1. Hiring in a specific internal position []
- W2. Postgraduate position or similar internship types []
- W3. None of the above []

(mark the corresponding box)

Notes and comments (e.g., please indicate strengths and/or weaknesses related to the topics covered in the MS programme; mention possible subjects to cover, etc.)
